

Method of investigation of Christian Christmas Deceit

De 21:23

As [pdf](#), [zip](#) or [exe](#)

Examinations on that what the Christians are declaring as "God's words"-scripts have to be performed according to the investigative methods of criminal science. This method is always to apply if one supposes a swindle. This, in particular, is to apply if of 72 "gospels" purportedly only 4 are "authentic". The premises of the possibilities of such a huge number of forgeries of a "Holy Writ" is that lying, deceiving and forging is a matter of course to the Christians. Otherwise, those forgeries would not happen. Christian propaganda about Christmas festivity pretends that Christmas is the birthday of Jesus who is lifted to the God by his fellows (Christians). The Christians behave as having invented Christmas. The method of criminal investigation we are applying now means that:

- firstly, each liar lies on account of its supposed advantage and not due to its disadvantages,
- secondly) a lie could never be perfect but
- thirdly are contradictory to the truth.

Hence, by contradiction one can catch the liars.

Therefore, truths never can be repressed perfectly and can more or less be reconstructed. That means that contradictions of lies are mostly the fragments of the truth enabling its reconstruction. At least in one of the links of consequences of a lie one can get the liar. According to this method, Christian sect is investigated here. For more information about the method, please click: <http://www.bare-jesus.net/e001.htm>
